

Ambe Group

A Flour To Feed Your Every Need

Company Profile

About Us

Ambe Group was started in 1962 in the Indian city of Patna, with an aim to provide quality wheat products in a market that was devoid of any local players in the flour milling business.

What started out as a family run flour milling plant with a capacity of 50 tons per day of wheat grinding, has today, 6 decades later, become one of India's largest flour milling conglomerates with facilities spread across the length and breadth of India, an enviable client list which transcends international borders, excellent human resources and a grinding capacity of 5,47,000+ tons per annum.

The group today owns and operates 5 world class mills across the country and is recognized for its quality, early adaptation of technology & strong work ethics.

What Makes Us Unique?

We are the only flour milling company in the country with a strong manufacturing presence across the north, east and south of the country

We produce nearly 3% of the total flour produced in the country

4% of the biscuits manufactured in the country are made using our flour

**Strong presence across all segments
Institutional, general trade, HoReCa etc**

**Preferred suppliers to all the major
manufacturers of Biscuits, Breads, Noodles
in the country**

A Basket Of Products

Today, Ambe Group offers a basket of over 30 quality flour products that fulfill needs across nations.

The assurance of purity and quality however remains the same. An assurance that we have stood by and imbibed in our ethos for over 60+ years.
